Apart from this, device has features like overspeed alert, Ignition ON/OFF, tracking history of three months etc. Maxlink can operate on low-power and have an internal backup data memory.

## Features:

- All Time Live Tracking
  - Tracking by time interval
  - Tracking by demand
  - Login through Application/Website
  - Tracking History
  - Configuration through SMS
  - Overspeed Alerts
  - Scheduled Alert
  - Temper Proof
  - One year Manufacturer Warranty
  - Made in India
  - Ignition On/Off
-

## Specification:

- Input Voltage : DC 9.0 V – 30.0 V
- Power Consumption : 1 mA in Sleep Mode/100 mA in Active Mode
- Battery Backup: 3.7V, 1100 mAh (Lithium ion Battery) Upto 8 hrs Standby
- Dimensions: 95mm\*60mm\*28mm
- Weight: 175g (Including Battery)
- Operating Temperature: -20°C to 55°C
- Humidity: 5% to 95% (non- condensing)
- GSM Module Quad band(850,900,1800,1900 MHz)
- SIM Type Normal SIM
- GPS Type AGPS

## Enhanced Mode

Maxlink 360 is the advanced version of Normal tracking device. It has advanced options like sensing the level of fuel in the vehicle, Immobilising the engine of vehicle, fuel tank open/close detection and extra ports which could be beneficial for future use. The main feature of this version is its ability to go for customizations according to the need of clients.

## Features:
